

Adventure Cabaret

Description

Adventure and a spirit of courageous exploration are at the heart of Adventure Cabaret: adventure mentally, emotionally, culturally, artistically, but most of all in considering new and better ways of life for us all.

In an age of utter corruption and cynicism, Adventure Cabaret embodies the highest ideals of free inquiry, courage and genuine morality, combined with creativity and humor. Adventure Cabaret includes everything: deep drama, original music, mysterious and profound questions, multimedia design, collaboration and confrontation with the audience, and apparent absurdity that contains deep meaning.

The goal of Adventure Cabaret is a massive cultural breakthrough—in theater, in content, and in community. We know our production will become a cultural phenomenon, and we want you to be part of creating that phenomenon.

Attend a performance and go home with a big smile and a head full of beautiful, inspiring ideas you can act on right away.

Adventure Cabaret was written by the Italian super genius Miranda Sorventi, commonly referred to as the modern female Leonardo da Vinci.

The motto of Adventure Cabaret:

Use your mind to improve your mind to improve the world.
